

OUR SUSTAINABILITY
AND ENVIRONMENTAL
POLICY

BIBLOS RESORT ALAÇATI; It aims to be an organization that makes a difference in the sector by effectively implementing its Quality, Environment, Energy, Food Safety, Customer Satisfaction Management Systems and requirements and with its expert staff who have adopted a continuous improvement approach, based on legal requirements and protecting the interests of all relevant parties. Our facility implements sustainability principles in an open, transparent, professional, reliable and fair manner.

OUR ENVIRONMENTAL POLICY

Sustainability will continue to be our priority in all areas related to the service we provide in Biblos. We value nature and strive to demonstrate this value by using environmentally friendly, ecological and natural materials in all our areas. We work in cooperation with the producers of our region with fresh, seasonal and local products from farm to table.

We work to recycle our waste by effectively separating it according to its source, groups and hazard classes.

By adhering to our Zero Waste principle, we contribute to protecting nature by choosing the materials we purchase in our business with "recycling" and "environmentally friendly" labels. We try to create reuse opportunities.

- We use disposable materials such as paper, napkins, toilet paper and packaging as much as necessary and take care to leave less waste to nature,
- We try to use water, energy and all natural resources economically. We share this sensitivity with our employees, guests and suppliers.
- We measure our performance in environmental management, monitor this data with targets and try to improve our performance,
- We aim to educate our employees about the environment and increase their awareness.

With this purpose;

- Evaluating and developing all our activities with the philosophy of "Continuous Development",
- To increase product / service quality by closely monitoring sectoral developments,
- Trying to recycle waste as much as possible by reducing it at its source,
- Contributing to environmental projects in order to leave a livable environment to future generations,
- Reducing waste by using raw materials, energy and natural resources efficiently,
- To protect ecological balance by giving importance to wildlife and biodiversity,
- To raise the environmental awareness of its employees, customers, suppliers and the local community,
- Ensuring that guests can submit their complaints to us whenever they want and protecting their rights,
- Ensuring that the food chain is safe in all processes starting from raw materials to presentation, and producing safe food under hygienic environmental conditions,
- To comply with the legal regulations and requirements related to our industry,
- To provide safe and appropriate standard working areas for our employees,
- Our guests, suppliers, subcontractors and our environment; to meet welfare, health and safety needs at the highest possible level,
- To provide training opportunities and working conditions that will improve the motivation, food safety, environmental and quality awareness of our employees,

We Commit.
